

Annette Jeswald, PMP

Consultant

ABOUT ANNETTE

Annette is a highly qualified Project Management Professional with over 20 years of experience. Before Kaiser Consulting, Annette supported various accounting and IT projects, ranging from EDI and billing system conversions and product development to the establishment of audit practices and benchmarking analyses. In addition to holding roles as a project manager, consulting manager, and financial analyst, Annette has acted as the subject matter expert for all aspects of the Order to Cash functional area for a global consulting company. Throughout her career, Annette has successfully managed projects that have resulted in significantly increased revenues and cost savings.

Annette's extensive background includes expertise in process improvements. With her excellent analytical and problem-solving skills, she can quickly identify critical business issues and opportunities for streamlining processes and procedures. At Kaiser Consulting, her skill set has proven to be valuable on a variety of projects, including the management of a data repository system, and the documentation and flowcharting of business processes. Annette is fully capable of managing and supporting projects in complex environments with aggressive timelines for deliverables. She understands the importance of team collaboration to ensure the achievement of project goals and objectives.

Clients appreciate Annette's unique blend of experience and her ability to apply her comprehensive knowledge and offer useful business solutions.
