

David Chew, CPA, MBA

Consultant

ABOUT DAVID

David is a highly versatile and accomplished business professional with over 25 years' experience in accounting. He brings a unique combination of skills to his clients, stemming from his practical experience as a controller, system design professional, and business owner, and the technical knowledge required of him as an adjunct professor of accounting and business courses at Ohio Dominican College. This diverse background has provided David with a strong command of all operational areas of a business, including accounting, marketing, finance, business management, quality control, and human resources.

Throughout David's career, he has been a trusted advisor to a variety of industries and businesses, from venture capital startups to multi-million dollar corporations. Clients especially appreciate his knowledge in data analytics and system integrations, along with his ability to substantially improve the financial reporting process for better business decision-making. David is an expert in using Microsoft Excel and Access tools to extrapolate and dissect financial information. He is a Microsoft Certified Systems Engineer and also certified in QuickBooks Online.

David's comprehensive accounting knowledge is invaluable in all of his engagements. He has an in-depth understanding of accounting department processes and procedures and is extremely proficient in the areas of financial reporting, inventory, cost accounting, and managerial accounting. His well-rounded skill set enables him to design and implement internal controls, identify and initiate business process improvements, and establish best practices.

His exceptional problem-solving skills and natural curiosity about a business's operations allow David to navigate through the most complex business challenges with ease.
