Consultant

ABOUT FELICIA

With over 25 years of experience in the accounting field, Felicia is a dedicated professional with comprehensive knowledge of the day-to-day workings of an accounting department. Whether preparing financial statements or managing a staff of accountants, Felicia's attention to detail and resourceful initiative are valued by clients as she leads projects to successful completion.

Felicia is proficient in month-end and year-end closings, general ledger maintenance, account research and reconciliations, accounts receivable, accounts payable, inventory control, and payroll. She is comfortable performing accounting services for a single entity, as well as those with branches or affiliates, and is well-versed in budgeting, forecasting, and financial analysis.

Felicia's wide-ranging experience includes federal grant administration, customer membership management, and large-scale event registrations. She embraces new technologies and has implemented an accounting software system, fraud detection service, and procurement card process resulting in significant business efficiencies. Additionally, clients appreciate Felicia's excellent communication skills as she interacts with their customers, vendors, and employees resolving issues most professionally.
