

## Jennifer Leonard, CPA (Inactive)

Consultant

### ABOUT JENNIFER

A versatile professional with 25+ years of accounting, finance and auditing experience, Jenni's in-depth knowledge comes from positions at a global professional services firm and two Fortune 500 companies. A CPA (Inactive), she has a proven ability to successfully manage multiple projects simultaneously while meeting deadlines and producing quality results for her clients.

Beginning her career as an auditor with Big-6 firm Arthur Andersen, Jenni planned, participated in, and supervised audit engagements in numerous industries. Subsequently, she held various leadership roles at regional and then super-regional, publicly held companies in the highly regulated utility industry. Her positions included senior financial accountant, manager of financial planning, lead financial analyst in financial planning, and lead regulatory analyst in regulatory accounting.

With experience working in dedicated business units and shared services environments, Jenni can perform financial planning, analysis and reporting for multi-entity companies, train and lead professionals, research and analyze corporate business issues and accounting pronouncements, and support executive and management teams with timely and accurate financial information. She is comfortable preparing compliance reports and exhibits for and responding to inquiries from external auditors, stakeholders, and multiple government regulatory agencies. Previously, she has prepared significant portions of management's discussion and analysis for SEC annual 10-K and quarterly 10-Q filings.

Jenni has excellent analytical and problem-solving skills and is proficient in implementing appropriate controls over accounting processes, overseeing the monthly close process, including delivering consolidated results, budgeting, cash flow preparation, and performing analyses for key ratios, capital structures and returns on equity. With a consistently positive attitude and proven technical and interpersonal skills, Jenni is a valued member of all client projects.
