

## **Joanne Murphy, MBA**

*Consultant*

### **ABOUT JOANNE**

An experienced professional with an ability to understand high-level business issues, Joanne uses her well-rounded accounting and finance background to assist organizations in identifying and resolving complex problems through process improvement. She is detail-oriented and organized, and she has the real-world experience to analyze financial data in a meaningful way.

With nearly two decades of experience in the banking and financial services arena for large commercial banks, Joanne has extensive experience with Accounts Payable, Purchasing, Financial and Pricing Analysis, and Strategic Planning. Significant projects include financial consolidations across multiple entities and the creation of pricing policies and decision tools for use in the field. She is proficient in QuickBooks, Ariba, MSAS, and SQL, as well as standard Microsoft Office products.

Clients value Joanne's ability to design and improve upon processes to resolve complicated problems, as well as her skills in testing them, communicating to and training other team members, and following up with detailed process documentation.

### **INDUSTRY EXPERIENCE**

Banking, Education, Financial Services, Information Technology, Insurance, Telecommunications
