

Liz Teed, CMA (Inactive), MBA

Consultant

ABOUT LIZ

With over 30 years of financial analysis experience, Liz is a solutions-oriented professional who has held various positions throughout her career, including staff accountant, financial manager, pricing manager, and business analysis manager. She is known for her resourcefulness and ability to efficiently extract and analyze meaningful financial data that is useful in making critical business decisions. Her excellent analytical and problem-solving skills, coupled with her outstanding work ethic, make Liz indispensable to her clients.

Liz draws on her expertise to automate processes related to data collection and to implement efficiencies in financial analyses. She is highly skilled in developing financial scorecards, creating value analytics, and performing financial modeling to assess the financial health of an organization accurately. As a critical thinker with an in-depth understanding of accounting processes, Liz is adept in developing or redesigning business processes, creating procedures for financial planning and approval, and leading initiatives such as expense reductions or profitability analyses.

With her keen attention to detail, Liz is also proficient in researching complex business issues, including regulatory pronouncements and technical accounting standards. Clients appreciate her ability to understand the impact on their organization and offer insightful and practical solutions for compliance.

Liz has a demonstrated ability to quickly understand her clients' business needs and build strong client relationships. She is a valued and trusted advisor on all of her Kaiser Consulting engagements.
