

Michelle Kidd

Consultant

ABOUT MICHELLE

Michelle is an accomplished, committed business professional with 20+ years of extensive accounting and financial management experience as a key strategic partner to her clients. Consistently applying her expertise, she drives bottom-line results by building relationships, improving processes, creating efficiencies, and motivating employees to perform at their best.

Well-versed in all aspects of accounting and reporting operations, Michelle is adept at month- and year-end financial statement preparation and analysis, strategic financial planning, internal control procedures, financial risk mitigation, regulatory and compliance management, and internal financial audits. She successfully achieves organizational goals within time and budgetary constraints by effectively utilizing her project management skills to collaborate with executive leadership members, oversee accounting and finance teams, and coordinate with internal and external stakeholders and auditors.

Michelle has excelled as an accounting operations manager, senior internal auditor, and senior financial analyst with a Fortune 100 diversified insurance and financial services organization and Fortune 500 manufacturer and marketer of specialty food products. She is an award-winning entrepreneur skilled at developing and executing business strategies, operational workflows, and reporting documentation to optimize desired outcomes.

Michelle's diverse experience includes cost accounting, key performance metrics, inventory management, product pricing, liability reserves, SOX controls, offshore accounting operations, treasury functions, cash flow planning, and workers' compensation issues. Her leadership abilities result in successful staff mentoring, superior customer service, and productive vendor relationships.

Clients value Michelle's strong technical and interpersonal skills and excellent perspective as she identifies and resolves issues to help their organization achieve its goals and objectives.
