

Renee McClain, CPA (Retired)

Consultant

ABOUT RENEE

Renee is a highly skilled CPA (Retired) with 30+ years of Big Four, Fortune 100, private industry, CPA firm, and consulting experience. A dedicated, articulate professional, she provides expertise in financial and SEC reporting, corporate accounting, auditing, and budget management.

Beginning her career as an auditor at the professional services firm now known as Deloitte, Renee subsequently serviced clients of several CPA firms and her own clients by performing various project-based accounting, auditing, reviews, compilations, tax preparation and business consulting engagements. Additionally, she was an accounting manager at a large-scale software and services company and an advisor at a global Fortune 100 healthcare company, where she capably prepared corporate accounting entries for the monthly business financial statements, quarterly SEC packet information, and annual tax reporting.

Renee is proficient in budgeting and forecasting, general ledger maintenance, accounts receivable and payable, and payroll. Her software skill set includes BlackLine, QuickBooks, SAP, and legacy systems that integrate with SAP. She adeptly develops standard operating procedure (SOP) guides, provides related training, and confidently partners with personnel at multiple levels of an organization, including distinct business segments, to accomplish internal accounting functions. Clients appreciate Renee's unique experience, vast knowledge and smart approach to helping them meet their business goals.
