

Stacy Tripp, CPA, MAcc

Consultant

ABOUT STACY

With over a decade of experience based upon positions held at a Big-4 public accounting firm, with Fortune 100 and 500 companies, and in private industry with a leading construction company and a management consulting firm, Stacy is a highly qualified CPA. She expertly applies her diverse skill set in challenging business environments, either independently or collaborating with others to achieve organizational goals and objectives.

Stacy began her career as an external auditor with Deloitte, a global professional services firm. Assisting clients in various industries, she gained in-depth knowledge of financial statement audits, Sarbanes-Oxley (SOX) compliance, internal control procedures, and process improvements.

Subsequently, Stacy was a senior accountant and an internal audit advisor with two publicly held companies – an operator and franchiser of a global restaurant chain and a worldwide healthcare services and products company, respectively. Her responsibilities included supervising accounting staff to complete objectives on time and utilizing her project management skills to develop and execute process and workflow testing plans. She also conducted financial and operational audits to ensure compliance with policies, procedures, laws, and regulations.

Stacy is comfortable preparing and presenting relevant financial information in accordance with GAAP as she works alongside executive leaders, internal department personnel, and external stakeholders, including auditors. She is skilled in budgeting, financial modeling, chart of accounts management, customer invoicing, and accounts payable, as well as several accounting and ERP packages, including Oracle, Sage Accounting, and QuickBooks Online.

Clients value Stacy's ability to create innovative solutions to overcome issues within their business as she assists them with implementing specific actions and measurable steps to achieve their enterprise-wide goals.
